This Chapter shall be known as the City of Claremont Taxpayer Protection Amendment of 2000.
(3/6/01 Election)

2.56.020 Findings and Declarations

(a) The people of the City of Claremont ("City") find that the use or disposition of public assets are often tainted by conflicts of interest among local public officials entrusted with their management and control. Such assets, including publicly owned real property, land use decisions conferring substantial private benefits, conferral of a franchise without competition, public purchases, taxation, and financing, should be arranged strictly on the merits for the benefit of the public, and irrespective of the separate personal or financial interests of involved public officials.

(b) The people find that public decisions to sell or lease property, to confer cable, trash hauling and other franchises, to award public construction or service contracts, or to utilize or dispose of other public assets, and to grant special land use or taxation exceptions have often been made with the expectation of, and subsequent receipt of, private benefits from those so assisted to involved public 'decision makers'. The people further find that the sources of such corruptive influence include gifts and honoraria, future employment offers, and anticipated campaign contributions for public officials who are either elected or who later seek elective office. The trading of special favors or advantage in the management or disposal of public assets and in the making of major public purchases compromises the political process, undermines confidence in democratic institutions, deprives meritorious prospective private buyers, lessees, and sellers of fair opportunity, and deprives the public of its rightful enjoyment and effective use of public assets.

(c) Accordingly, the people declare that there is a compelling state interest in reducing the corruptive influence of emoluments, gifts, and prospective campaign contributions on the decisions of public officials in the management of public assets and franchises, and in the disposition of public funds. The people, who compensate public officials, expect and declare that as a condition of such public office, no gifts, promised employment, or campaign contributions shall be received from any substantial beneficiary of such a public decision for a reasonable period, as provided herein. (3/6/01 Election)

- (1) has more than a ten percent (10%) equity, participation, or revenue interest in that entity, or
 - (2) who is a trustee, director, partner, or officer of that entity.
